Felix Janemalm

Principal Product Designer, Design Systems

hello@felixjanemalm.com
+1 323 394 2780
Los Angeles, CA

CORE SKILLS

Design Systems Governance & Release Management

Design Tokens & Semantic Token Architecture

Multi-brand Theming (Figma variables)

Component Library Design (variants and properties)

Design-to-Code Pipelines (Tokens Studio, Style Dictionary, Storybook/NPM)

Accessibility (WCAG 2.2 AA, CI contrast checks)

Design System Documentation

Contribution & Adoption Models

Migration Playbooks & Design Audits

TOOLS

Figma
UI design, prototyping

Tokens Studio
Token source of truth

Style Dictionary
Token build pipeline

Storybook
Frontend workshop

NPM
Package publishing

Git
Version control

MUI
React component library

Tailwind
Utility CSS framework

SwiftUI
iOS UI framework

Android XML
Android UI layer

Webflow
CMS, prototyping

ProtoPie
Prototyping

Jira
Project management

VWO
A/B testing

Summary

Principal Product Designer who has built design systems that unify complex B2B SaaS platforms since 2019. I help product teams scale through token-driven infrastructure, where one design decision reaches every platform without manual handoff, and now build AI systems end to end.

Experience

Principal Product Designer, Design Systems

Independent / Consulting · Mar 2024 – Present · Los Angeles, United States
Clients: Yubico, Stanford Medicine, Hewlett Packard Enterprise, WebMocha, Digital Pop

- Built design token pipeline (Tokens Studio ⇄ Figma, Style Dictionary, Storybook/NPM) that syncs designer edits directly to code, reducing QA effort by 40–60%.
- Set up Figma multi-context variables so components are designed once and themed per brand, size, and platform. Asset preparation now runs 75% faster.
- Rebuilt a marketing site on a component-driven system; page lead times went from ~3 days to under 2 hours.
- Wrote design system documentation and established governance, versioning, and release management for client component libraries.

Co-founder & Design Engineer

Los Telos · Own company (co-founded) · Aug 2025 – Present

Co-founded a fashion startup and solo-built its 20+ agent traceability platform in 4 months, automating vendor sourcing, invoice processing, and compliance tracking end to end, so one scan takes a shopper from garment tag to the verified supply chain.

Yubico

4 yrs 7 mos

Principal Product Designer

Full-time · Jan 2021 – Feb 2024 · 3 yrs 2 mos
Stockholm, Sweden

- Led design-system work for 10+ designers and 50+ engineers across three engineering teams to unify 5 products across six codebases (WordPress+React, Svelte+Tailwind, MUI, docs, email, mobile) on one design system: ~80% less UI rework, $3M+ reclaimed annually.
- Designed a multi-million-dollar SaaS product from scratch and saw it through to delivery (concept, interactive Figma prototypes, validation, implementation), coordinating engineering, the docs team, and product management.
- Built the token pipeline that takes one design change to six platforms (CSS, Tailwind, MUI, SwiftUI, Android XML, email) with zero manual steps; faster feature launches added $6M to the year-over-year sales pipeline.
- Negotiated shared naming conventions with every product team, established the governance model, and coached designers on system workflows, raising adoption and cross-platform consistency by 40%.
- Built accessibility into the token and component layer rather than bolting it on at QA. WCAG 2.2 AA compliance across every platform, 25% less rework.

UX Designer

Full-time · Aug 2019 – Jan 2021 · 1 yr 6 mos
Stockholm, Sweden

- Created Yubico's first enterprise design system, replacing fragmented legacy processes with a unified component library.
- Brought stakeholders from all products onto the shared framework, cutting design debt and laying the foundation for the 2021 five-product unification.

FIDO UX Working Group Member

FIDO Alliance · Aug 2022 – Jan 2024 · Remote

Workshop Facilitator / Agile Transformation

Agile Extreme · Jan 2019 – Aug 2019 · 8 mos

Certificates

Certified SAFe® 5 Product Owner / Product Manager
Scaled Agile, Inc.
Issued Oct 2022

Advanced 2D Animation
School of Motion
Issued Sep 2022

Universities

Edith Cowan University
B.A. in Media & Communications
2017–2019

Berghs School of Communication
Bachelor, Communication Strategy
2016
